COUNTY OFFICIAL PAPER

VOL. 34

DAILY EAST OREGONIAN, PENDLETON, OREGON, MONDAY EVENING, MARCH 27, 1922.

DAILY EDITION

The East Oregonian is Eastern Oregon's greatest newspaper and as a selling force gives to the advertiser over twice the guaranteed average paid circulation in Pendleton and Umatilla county of any other newspaper.

COUNTY OFFICIAL PAPER

NO. 10093

ROBBERS FAIL IN ATTEMPT TO ROB BANK AT PILOT ROCK SATURDAY NIGHT

TURKEY WILL BE RESTORED BY NEW DEAL

Proposal Calls for Return of Territory and Revision of the Treaty of Seyres.

TERMS CONDITIONED ARMISTICE ACCEPTANCE

Constantinople Would Remain Turkish But Greece Will Get Gallipoli Peninsula.

PARIS, March 27.—(U. P.)—Responding to millions of Mohammedans throughout the Moslem world, the Near East commission today officially announced its decision of restoring to the Turkish nation "a vigorous independent national existence."

The following decisions were announced: Thousands of square miles of territory, including the country of Anatoli and a large portion of Thrace, will be returned to Turkey; the Turks will be permitted a larger garrison in Constantinople, with a decrease of the allied armies. Turkey will be permitted a standing army of 50,000 to 60,000. The allies will occupy the Gallipoli Peninsula to safeguard the entrance to the Dardanelles; commissions, with Turkish representation, will revise the economic and judicial clauses of the Sevres treaty. These conditions are dependent upon the Turkish acceptance of the armistice terms ending the Greco-Turkish war.

WOULD SHOW AN ALIBI.

NEW YORK, March 27.—(U. P.)—George L. "Tex" Rickard, the sporting promoter, accused of misconduct with four school girls, took the stand in his own defense this afternoon. Mrs. Rickard testified this morning in the course of proving an alibi for the promoter.

BUCKAROOS WILL MEET PILOT ROCK SUNDAY

The Buckaroos will play Pilot Rock a practice game next Sunday at Pilot Rock, according to an announcement made today by Lou Pinson manager of the local team.

Baseball practice for the Buckaroos will be held again tomorrow afternoon at Round-Up park at 4:30. Any one with ability desiring to tryout for a position on the team is invited to be there to work out. Yesterday the team worked out with about seven first string players present.

The Buckaroos will open their regular season against Dayton April 18. The Blue Mountain Baseball league was organized at Walla Walla Saturday night, with four teams as members: Pendleton, Milton-Freewater, Walla Walla and Dayton. A schedule calling for 14 games was tentatively drawn up. Judge Chester Miller of Dayton, was elected president of the organization.

Other officers of the league chosen at the meeting are O. W. Gross of Walla Walla, secretary, and S. J. Anderson of Milton, treasurer. The directors are M. J. Maynard, Milton-Freewater; Z. E. Scott, Dayton; Dr. Keating, Walla Walla, and Harry Kuck, Pendleton.

THE WEATHER

Maximum, 56.
Minimum, 39.
Barometer, 29.85.

TODAY'S FORECAST

Cloudy tonight; Tuesday rain.

WHERE'S THE REFEREE?

Congressman Samuel E. Winslow, Worcester, Mass., fought a few rounds with a golf ball while a rubber employed by his friends followed him about the links with water pail and sponge.

IRISH ARMY WILL OPPOSE FREE STATE LOYAL TO DE VALERA

Forbidden Convention Ends After Action for Republic Dail Eireann Denounced.

DUBLIN, March 27.—(U. P.)—The forbidden convention of Irish republican army leaders ended today, after voting to maintain an army to support "the republic of Ireland." The authority of Dail Eireann to use the army for a free state was repudiated and allegiance was pledged to De Valera. Sixteen leaders were appointed to control the separate republican army which will refuse to obey orders of the provisional government.

AGED JANITOR SUICIDES
SEATTLE, March 27.—(U. P.)—Discharged from his job as janitor in a hospital here because of old age, penniless and starving, John Quincey Adams, 68 years of age, spent his last fifteen cents for poison Saturday night and died in the City hospital this morning.

MAY IMPORT COAL TO RELIEVE EFFECTS OF EXPECTED STRIKE

Ships Would Use Coal as Ballast; Supply Would Answer Needs for Year.

WASHINGTON, March 27.—(U. P.)—The government may import coal to save the nation from hardship during the impending coal strike, government officials admitted today. The coal will be used as ballast on ships returning from coal producing countries. It is estimated enough coal can be procured thus to prevent a shortage for one year. The imports together with the coal on hand will be sufficient to run industries, railroads and satisfy the private consumer for 12 months at least, officials believe.

May Avert Strike.

CHICAGO, March 27.—(U. P.)—Frank Farrington, head of the Illinois union miners, will confer with the presidents of three middle west coal operators' associations Wednesday in an effort to avert the coal strike called for April first, according to an announcement today.

LIVESTOCK PRICES STEADY.

PORTLAND, March 27.—(A. P.)—Cattle are steady, choice steers \$7.50 to \$8.25; hogs are a quarter higher, the prime light being \$11.75 and \$12; sheep are steady, eggs firm, the buying price being 26 and 27 cents; butter is steady.

SENATE TANGLE RESULTS FROM TREATY STATUS

Democrats May Force Hughes Declaration be Made Part of Four Power Treaty.

TO EXCLUDE DEMOCRATIC ISSUE FROM PACT SCOPE

Ratification of Mainland Supplementary Treaty is Expected in a Few Days.

WASHINGTON, March 27.—(U. P.)—Democratic senators may succeed in forcing Senator Lodge to make the Hughes "declaration" a part of the four power Pacific pact. The declaration reserves American rights in the mandated islands in the Pacific and excludes domestic questions such as the Japanese question on the Pacific coast from the operations of the four power Pacific pact.

Two Methods Open.

WASHINGTON, March 27.—(A. P.)—Two methods of clearing up the technical senate tangle over the four power Pacific treaty and its supplements were considered today by republican leaders. While the senate continued the debate on the supplementary measure excluding the Japanese mainland from the four power treaty's scope, ratification of the Japanese mainland supplementary treaty within a few days is expected.

French Will Approve.

PARIS, March 27.—(A. P.)—The French government will approve the adoption by the French parliament of the "no alliance" reservation of the four power treaty adopted by the United States senate, said officials.

TRACTOR SCHOOL WILL BE HELD TONIGHT AT THE SIMPSON AUTO CO.

Five Large Organizations Have Combined to Make This the Largest School of its Kind.

Eleven experts are in Pendleton to conduct a tractor school for the farmers. The first meeting will be held tonight at 7 o'clock at the Simpson Auto company's office, corner Water and Johnson streets. This is the first time that five large organizations have gone together to put on a show of this kind, in the opinion of J. D. Jordan, assistant manager of the Ford Motor company, Portland. Combustion and ignition will be the principal topics for discussion tonight. Besides this one of the Ford educational pictures will be shown. This show is recommended to the farmers by Fred Bennion county agricultural agent.

The five organizations backing the show are the Ford Motor Co., Oliver Chilled Plow Works, Standard Oil Co., American Steading Machine Co., and the Oregon Agricultural college. Trade names are not used in the discussion, which is purely educational.

The men here for the school are J. D. Jordan, assistant manager of the Ford Motor Co., Portland; C. W. Harrison, assistant manager of the Oliver Plow Co., Portland; William Munro, lubrication expert for the Pacific coast for the Standard Oil Co.; C. E. Allison, Mechanical expert Ford Motor Co., Portland; Fred Service, special representative of the American Steading Machine Co.; and Professor W. J. Gilmore of the O. A. C. farm mechanics department.

Other men in the party are William Goodwin, manager of the Ford Motor Co., Portland and H. C. Carmichael, special representative of Henry Ford from Dearborn, Mich., who have come to Pendleton to attend the school. Mr. Chas. B. Parker, chief road expert of the Ford Motor Co., Jerry Job, assistant manager Ford Motor Co., Seattle, and Fred Donahue, territorial representative Ford Motor Co., Seattle are the other members of the party. The Seattle men are conducting a "tractor demonstration near Walla Walla."

This show was started following a statement by Henry Ford that all prosperity centers in the farm. Henry Ford says: "As a general thing, the farmers have bettered their condition."

AUDITOR SUGGESTS TAX MONEY BE TURNED OVER EACH DAY BY SHERIFF; WOULD MEAN SAVING

That the county may be saved a considerable sum of money in the course of a year by reason of interest money secured which has not accrued to the benefit of the county funds in the past is the substance of the first report made by Whitfield, Whitecomb & Co., to the county court under arrangement recently entered into whereby the firm of public accountants examines county books once every month.

The saving can be effected in the sheriff's office by a new plan which will make it possible for tax money received by the office to be turned over to the office as the treasurer more promptly than is now the case. This money, the report points out, will either draw interest or it may be used to pay off warrants which draw interest.

Members of the county court have expressed their satisfaction at the possibility of making a savings in this way. The recommendation of the auditing firm is as follows:

"On December 29, 1921, the tax collector turned over to the treasurer \$35,991.07, being turnover No. 74. The next turnover, No. 75, was not accomplished until February 20, 1922. Collections at that time had accumulated to \$21,256.45. During the approximate 51 days collections were very moderate only, varying from \$1,137.16 to \$6,182.22 per day and yet the advantage the county could have secured by depositing funds at shorter intervals would have been worth while.

An examination of exhibits accompanying this report make it apparent that the county was deprived of a minimum of \$35.14, but this is not all. On January 1, 1922, and any time thereafter to date, general road fund warrants were registered for want of funds and were drawing interest at the rate of six per cent per annum. For this reason the loss to the county amounted to six per cent on such collections as were applicable to the fund on which six per cent warrants were outstanding and two per cent on such collections as were applicable to the funds on which no six per cent warrants were outstanding.

"The open days in Exhibit 'C' which accompanies this report, are brought about by the tax collector using the same date on receipts for several days during periods when collections are small. In fact, the proceeds of receipts dated January 3, 1922, may have been collected anywhere from December 18, 1921 on, at which date the collection register for 1921 was closed.

"During the year 1921, receipts from current taxes including interest and penalties, apparently aggregated \$1,458,150.35. This sum was turned over to the treasurer in only 14 turnovers, with as high as \$397,851.59 in one turnover. It will be seen from this that the loss in an entire year amounts to a very considerable sum in the aggregate.

PROMINENT DOCTORS FORM PARTNERSHIP

A partnership between Drs. H. H. Hattery and H. J. Kavanaugh is announced for April 1. The partners will occupy seven rooms in the American National Bank Building. Dr. Kavanaugh will occupy the rooms of Dr. Ritchie and Dr. Ritchie will take over Dr. Kavanaugh's present office. A bacteriologist and expert X-ray man will be employed. A system of thorough physical examination along scientific lines is to be developed second to none in the state, it is announced. Personal service to the patient is to be the keynote of this new organization and no expense has been spared in the outline of the plan. New laboratory equipment, a new X-ray plant of latest design with an expert in charge will make this office one of the finest in the state.

ELECTRIC LIGHTS FOOL HENS INTO TRIPLE WORK

MEDINA, O., March 27.—George Burr, poultry man, has devised a novel scheme whereby hens are lured into increasing egg production. The use of electric lights in his henery, declares Burr, has resulted in the tripling of the number of eggs he receives daily.

"Electric lights fooled the hens into triple work," states Burr. "I allow the chickens a sleeping period, then turn on the lights in the middle of the night. The hens think it is daytime and are thus fooled into laying twice a day."

From the same number of hens Burr says he collected 3,485 eggs in January, as against 1,154 in the same month of 1921.

PONZI MUST FACE TRIAL IN 22 CASES

WASHINGTON, March 27.—(A. P.)—Charles Ponzi, under a five year sentence on a plea of guilty to one of two federal indictments for financial operations in Boston, must stand trial in the Massachusetts courts on 22 indictments charging certain crimes under the state laws, the supreme court held today.

A Killed in Wreck

DALLAS, Tex., March 27.—(U. P.)—Three men were killed and four seriously injured when a car loaded with iron telescoped another freight car on the Katy railroad this morning. Officials expressed the belief that all men killed were trespassers.

IN THREE 18 HOURS.

WASHINGTON, March 27.—(U. P.)—After remaining perched in a tree 69 feet from the ground on the edge of a deep ravine more than 18 hours, clothed only in a nightgown, Mrs. Anna Lymborska, an inmate of St. Elizabeth's lunatic asylum, was taken down by guards today. She had threatened to jump if molested, but firemen and police combined to capture her.

ARMED POSSES HUNT BANDITS WHO KILLED MAN AT PORT ANGELES

Desperadoes Heavily Armed With Result Battle is Expected if Located.

PORT ANGELES, Wash., March 27.—(U. P.)—Two posses of 80 men each today surrounded the wooded territory near the logging camp of Center, where two bandits who Saturday night held up the Port Discovery Recreation hall and killed Ray Light, a logger, are believed to have been trapped. The posses were led by Sheriff Nelson of Clallam county, and Sheriff Chase of Jefferson county. The men ultimately will be caught, unless they accomplish the almost impossible feat of scaling a snowcapped peak against which the posses are pushing them. The men are known to be heavily armed and a battle is expected.

FIVE LOCAL HOUSES ENTERED BY THIEVES WHO TAKE MITE BOXES

Small Sums of Cash Only Missed as Result of Operations of Burglars During Night.

A burglar or burglars, thought by the sneak variety, waged a campaign in Pendleton last night in which cash seems to have been the thing most sought. At noon today the police had reports of five houses which were entered, but from none of them was more than a slight amount of money taken.

The houses entered were those of J. J. Hamley, John Eggers, Mrs. Lana Sturgis, Willard Bond and C. K. Cranston, all on the north side of the city.

At the Bond home the Easter mite box of Betty Bond which contained about two dollars was taken. Traces were left by the miscreant which would indicate that they had searched farther for money.

A little cash was secured at the Eggers home, and it is thought that the burglar was frightened away from there. A member of the family had set an alarm for 4 o'clock this morning. When the alarm awakened him this morning, he thought he heard someone down stairs and rushed down. One of the front windows was open, and the thief evidently had left without closing the window.

A mite box was taken from the Cranston home, and one dollar in cash which belonged to Miss Gladys Hamley, was taken from the Hamley home.

Six horses in Walla Walla were robbed.

LOCK PROVES TOO MUCH FOR VEGGS WHO ABANDON JOB

Robbers Used Stolen Car Belonging to Highway Dept. Then Stole O-W. Speeder.

DAMAGE TO DOOR IS ONLY LOSS SUFFERED

Efforts at Looting Vault Given Up When Burglars Run Against Steel Wall.

An Anakin lock attached to the door of the vault of the First Bank of Pilot Rock is held responsible by L. C. Scharpf, president of that institution, for the failure on the part of robbers to realize their ambitions to rob the bank early Sunday morning.

As the job turned out the bank lost nothing in money, and the damage done to the doors will have to be borne by insurance companies. The thieves left a trail of wreckage behind them, a hurt out bearing in a Ford car which they stole being one of the results of their activities, and the O-W. R. & N. is also short a speeder which the robbers are thought to have taken when they left town.

The robbers are thought to have done their work between midnight Saturday night and daylight Sunday morning. They made their way from Pendleton to Pilot Rock in a car which belonged to the state highway department. A bearing which burned out caused them to be halted about one mile this side of Pilot Rock. They took some wrenches from the machine and then evidently broke into a blacksmith shop from where they secured other wrenches and bars.

Entrance to the bank building was gained by the use of a brace and bit, a row of holes having been bored around one of the panels in the door in this manner. The men then crept in through this aperture and started their operations. In their effort to get into the bank vault they tried to knock off the combination knob and then an effort was made to drive back the steel on which this turns which operates the bolts. The Anakin lock was then automatically released, however, so the men were as far away as ever from getting into the vault. They tried using picks, but they got only about one inch into the concrete before they struck the steel with which the walls are reinforced and then gave up the job, either as a hopeless task or because they were frightened away, according to Mr. Scharpf's theory.

Yesterday Scharpf and Will Glass and C. W. Paulus spent the day getting the doors open so the bank would be able to get out its books before opening hour this morning. They accomplished their object after quite a lot of experimenting.

The bank's loss will be negligible, Mr. Scharpf stated this morning, but the two stenographers, Miss Verona Follenwelder and Miss Anna Smith, employed by the institution have a real cause for grief. They each had new

(Continued on page 4.)

CANNOT FIND OUT WHO RECOMMENDED CUTOFF

The following message has been received by the Commercial Association from Congressman N. J. Snioco on the subject of the Wallula cutoff.

Replying to your night letter yesterday about Wallula cutoff this morning I had conference with Thomas H. MacDonald, chief of the bureau of public roads. He informed me the Wallula cutoff had been designated by the concurrence of all the officials of the bureau here after taking into consideration that the state of Washington had designated the Yakima valley road as a primary road to the Oregon state line below Wallula. He would not give me more definite information as to who recommended the designation. I reiterated and urged strongly the reasons against the road presented me by Roy Rittner when he was here and particularly the necessity for completion of present program of more important roads. Chief MacDonald said that no money would be spent out of the present appropriated funds on the Wallula cutoff and that it was merely on the projected future system and that construction probably would not be undertaken for several years.

N. J. SNIOCO.
